

The Directors of DEXUS Funds Management Limited (DXFM) as Responsible Entity of DEXUS Industrial Trust and its consolidated entities (DIT or the Trust) present its Directors' Report together with the consolidated Financial Statements for the year ended 30 June 2009.

The Trust together with DEXUS Diversified Trust, DEXUS Office Trust and DEXUS Operations Trust form the DEXUS Property Group stapled security.

## 1. Directors and Secretaries

### 1.1 Directors

The following persons were Directors or Alternate Directors of DXFM at any time during or since the end of the year to the date of this Directors' Report, unless otherwise stated:

Directors	Appointed	Resigned
Christopher T Beare	4 August 2004	
Elizabeth A Alexander AM	1 January 2005	
Barry R Brownjohn	1 January 2005	
John C Conde AO	29 April 2009	
Stewart F Ewen OAM	4 August 2004	
Victor P Hoog Antink	1 October 2004	
Charles B Leitner III	10 March 2005	29 April 2009
Brian E Scullin	1 January 2005	
Peter B St George	29 April 2009	
<b>Alternate Director</b>		
Andrew J Fay for		
Charles B Leitner III	30 January 2006	29 April 2009

Particulars of the qualifications, experience and special responsibilities of current Directors at the date of this Directors' Report are set out in the Directors section of the DEXUS Property Group Annual Report and form part of this Directors' Report.

### 1.2 Company Secretaries

The names and details of the Company Secretaries of DXFM as at 30 June 2009 are as follows:

#### **Tanya L Cox MBA MAICD FCIS (Company Secretary)** **Appointed: 1 October 2004**

Tanya is the Chief Operating Officer and Company Secretary of DXFM and is responsible for the delivery of company secretarial, operational, information technology, communications and administration services, as well as operational risk management systems and practices across the group. Prior to joining DEXUS in July 2003, Tanya held various general management positions over the past 15 years, including Director and Chief Operating Officer of NM Rothschild & Sons (Australia) Ltd and General Manager – Finance, Operations and IT for Bank of New Zealand (Australia). Tanya is Chair of the Property Council of Australia National Risk Committee and the Australian Athletes with a Disability. Tanya is a director of the Music and Opera Singers Trust and the AGSM Alumni Advisory Board. Tanya is a member of the Australian Institute of Company Directors and is a fellow of the Institute of Chartered Secretaries and Administrators (ICSA) and Chartered Secretaries Australia (CSA). Tanya has an MBA from the Australian Graduate School of Management and a Diploma in Applied Corporate Governance.

Tanya is Chief Operating Officer and Company Secretary of DXFM, DEXUS Holdings Pty Limited (DXH) and DEXUS Wholesale Property Limited (DWPL) and is a member of the Board Compliance Committee.

#### **John C Easy B Comm LLB ACIS (Company Secretary)** **Appointed: 1 July 2005**

John is the General Counsel and joint company secretary of DXFM. During his time with the group he has been involved in the establishment and public listing of the Deutsche Office Trust, the acquisition of the Paladin and AXA property portfolios, and subsequent stapling and creation of the DEXUS Property Group. Prior to joining DEXUS in November 1997, John was employed as a senior associate in the commercial property/funds management practices of law firms Allens Arthur Robinson and Gilbert & Tobin. John graduated from the University of New South Wales with Bachelor of Laws and Bachelor of Commerce (Major in Economics) degrees. He is a member of Chartered Secretaries Australia and holds a Graduate Diploma in Applied Corporate Governance.

John is General Counsel and Company Secretary for DXFM, DXH and DWPL and is a member of the Board Compliance Committee.

**DEXUS INDUSTRIAL TRUST**  
**DIRECTORS' REPORT**  
**FOR THE YEAR ENDED 30 JUNE 2009**

CONTINUED

## 2. Attendance of Directors at Board meetings and Board Committee meetings

The number of Directors' meetings held during the year and each Director's attendance at those meetings is set out in the table below.

The Directors met 18 times during the year. Nine Board meetings were main meetings, and nine special meetings were held to consider specific business. While the Board continuously considers strategy, in March 2009 it met with the executive and senior management over two days to consider DXS's strategic plans.

<b>Board Meetings</b>	<b>Main meeting held</b>	<b>Main meetings attended<sup>2</sup></b>	<b>Specific meetings held</b>	<b>Specific meetings attended<sup>2</sup></b>
<b>Directors</b>				
Christopher T Beare	9	9	9	8
Elizabeth A Alexander AM	9	9	9	9
Barry R Brownjohn	9	9	9	7
John C Conde AO <sup>1</sup>	2	2	–	–
Stewart F Ewen OAM	9	8	9	9
Victor P Hoog Antink	9	9	9	9
Charles B Leitner III <sup>3</sup>	8	8	9	9
Brian E Scullin	9	9	9	9
Peter B St George <sup>1</sup>	2	2	–	–

1 Appointed 29 April 2009.

2 Indicates where a Director attended either personally or an Alternate was in attendance.

3 Based in New York, USA and resigned 29 April 2009.

Special meetings are held at a time to enable the maximum number of Directors to attend and are generally held to consider specific items that cannot be held over to the next scheduled main meeting.

During the year the Board reviewed its Board Committee structure and following the appointment of Messrs Conde and St George in April 2009 the Board further reviewed its committee membership effective 1 May 2009.

The table below sets out the number of Board Committee meetings held during the year for the Committees in place at the end of the year and each Directors' attendance at those meetings.

	<b>Board Audit Committee</b>		<b>Board Risk Committee</b>		<b>Board Compliance Committee</b>		<b>Board Nomination and Remuneration Committee</b>		<b>Board Finance Committee</b>	
	<b>Held</b>	<b>Attended</b>	<b>Held</b>	<b>Attended</b>	<b>Held</b>	<b>Attended</b>	<b>Held</b>	<b>Attended</b>	<b>Held</b>	<b>Attended</b>

Stewart F Ewen OAM	–	–	–	–	–	–	9	9	–	–
Victor P Hoog Antink	–	–	–	–	–	–	–	–	–	–
Charles B Leitner III <sup>2</sup>	–	–	–	–	–	–	–	–	–	–
Brian E Scullin	6	6	3	3	4	4	9	9	–	–
Peter B St George <sup>1</sup>	1	1	1	1	–	–	–	–	1	1

1 Appointed 29 April 2009.

2 Resigned 29 April 2009.

### 3. Directors' interests

The Board's policy on insider trading and trading in the Trust securities or securities in any of the funds managed by DEXUS by any Director or employee is outlined in the Corporate Governance Statement in the DEXUS Property Group Annual Report.

While the trading policy described in the Corporate Governance Statement applies to Directors and Senior Executives, the Board has determined that Directors will not trade in any security managed by DEXUS.

Directors have made this decision because the Board of DXFM has responsibility for the DEXUS Property Group itself as well as the third party business. Directors are obliged to act in the best interests of each group of investor's independently of each other. Therefore, to minimise the appearance of conflict that may arise by being a Director of multiple funds, the Directors have determined that they will not invest in any fund managed by DEXUS including DXS. This position is periodically reviewed by the Board.

As a direct result of DEXUS's policy regarding Directors holding DXS securities, or securities in any of the funds managed by DEXUS, as at the date of this Directors' Report no Director directly or indirectly held:

- securities in the Trust; or
- options over, or any other contractual interest in, the Trust; or
- an interest in any other fund managed by DXFM or any other entity that forms part of the Trust.

### 4. Directors' directorships in other listed entities

The following table sets out directorships of other listed entities, not including DXFM, held by the Directors at any time in the three years immediately prior to the end of the year, and the period for which each directorship was held:

Directors	Company	Date appointed	Date resigned or ceased being a Director of a listed security
Elizabeth A Alexander AM	CSL Limited	12 July 1991	
	Boral Limited	15 December 1999	24 October 2008
John C Conde AO	Whitehaven Coal Limited	3 May 2007	
Brian E Scullin	Deutsche Asset Management (Australia) Limited <sup>1</sup>	24 October 2000	17 October 2006
	IYS Instalment Receipt Limited <sup>1</sup>	24 October 2000	17 October 2006
	SPARK Infrastructure RE Limited <sup>2</sup>	1 November 2005	24 August 2007
	BT Investment Management Limited	17 September 2007	
Peter B St George	Boart Longyear Limited	21 February 2007	
	SPARK Infrastructure RE Limited <sup>2</sup>	8 November 2005	31 December 2008
	First Quantum Minerals Limited <sup>3</sup>	20 October 2003	
<b>Alternate Director</b>			
Andrew J Fay (alternate to Charles B Leitner III)	Deutsche Asset Management (Australia) Limited <sup>1</sup>	20 October 2004	17 October 2006
	IYS Instalment Receipt Limited <sup>1</sup>	20 October 2004	17 October 2006
	SPARK Infrastructure RE Limited <sup>2</sup>	7 December 2006	12 December 2007

<sup>1</sup> IYS Instalment Receipt Limited had until 29 November 2006 issued ASX listed instalment receipts over units in the Deutsche Retail Infrastructure Trust, a managed investment scheme that was until 17 October 2006 listed but not quoted on the ASX and whose responsible entity was Deutsche Asset Management (Australia) Limited. Deutsche Asset Management (Australia) Limited ceased to be the Responsible Entity of IYS Instalment Receipt Limited on 17 October 2006.

<sup>2</sup> SPARK Infrastructure RE Limited has issued ASX listed stapled securities trading as SPARK Infrastructure Group (ASX: SKI).

<sup>3</sup> Listed for trading on the Toronto Stock Exchange in Canada and the London Stock Exchange in the United Kingdom.

### 5. Principal activities

During the year the principal activity of the Trust was investment in real estate assets. There were no significant changes in the nature of the Trust's activities during the year.

### 6. Total value of Trust assets

The total value of the assets of the Trust as at 30 June 2009 was \$2,092.6 million (2008: \$2,349.3 million). Details of the basis of this valuation are outlined in note 1 of the Notes to the Financial Statements and form part of this Directors' Report.

## 7. Review and results of operations

A review of the results, financial position, operations including business strategies and the expected results of operations of the Trust, are set out in the Chief Executive Officer's Report of the DEXUS Property Group 2009 Security Holder Review and forms part of this Directors' Report.

## 8. Likely developments and expected results of operations

In the opinion of the Directors, disclosure of any further information regarding business strategies and the future developments or results of the Trust, other than the information already outlined in this Directors' Report or the Financial Statements accompanying this Directors' Report would be unreasonably prejudicial to the Trust.

## 9. Significant changes in the state of affairs

The Directors are not aware of any matter or circumstance, not otherwise dealt with in this Directors' Report or the Financial Statements that has significantly or may significantly affect the operations of the Trust, the results of those operations, or the state of the Trust's affairs in future financial years.

## 10. Matters subsequent to the end of the financial year

Since the end of the year, the Directors are not aware of any matter or circumstance not otherwise dealt with in this Directors' Report or the Financial Statements that has significantly or may significantly affect the operations of the Trust, the results of those operations, or the state of the Trust's affairs in future financial years.

## 11. Distributions

Distributions paid or payable by the Trust for the year ended 30 June 2009 were outlined in note 27 of the Notes to the Financial Statements and form part of this Directors' Report.

## 12. DXFM's fees and associate interests

Details of fees paid or payable by the Trust to DXFM for the year ended 30 June 2009 are outlined in note 31 of the Notes to the Financial Statements and form part of this Directors' Report.

The number of interests in the Trust held by DXFM or its associates as at the end of the financial year are nil (2008: nil).

## 13. Units on issue

The movement in units on issue during the year and the number of units on issue as at 30 June 2009 are detailed in note 25 of the Notes to the Financial Statements and form part of this Directors' Report.

## 14. Environmental regulation

DEXUS Property Group senior management, through its Risk Committee, oversee the policies, procedures and systems that have been implemented to ensure the adequacy of its environmental risk management practices. It is the opinion of this Committee that adequate systems are in place for the management of its environmental responsibilities and compliance with its various licence requirements and regulations. Further, the Committee is not aware of any breaches of these requirements and to the best of its knowledge all activities have been undertaken in compliance with environmental requirements.

## 15. Indemnification and insurance

The insurance premium for a policy of insurance indemnifying Directors, officers and others (as defined in the relevant policy of insurance) is paid by DXH. The auditors are in no way indemnified out of the assets of the Trust.

## 16. Audit

### 16.1 Auditor

PricewaterhouseCoopers (PwC or the Auditor) continues in office in accordance with section 327 of the *Corporations Act 2001*.

### 16.2 Non-audit services

The Trust may decide to employ the Auditor on assignments additional to their statutory audit duties where the Auditors expertise and experience with the Trust and/or DEXUS Property Group are important.

Details of the amounts paid to the Auditor, which include amounts paid for non-audit services are set out in note 7 of the Notes to the Financial Statements.

The Board Audit Committee is satisfied that the provision of non-audit services provided during the year by the Auditor (or by another person or firm on the Auditor's behalf) is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The reasons for the Directors being satisfied are:

- Board Audit Committee has determined that the Auditor will not provide services that have the potential to impair the independence of its audit role, including:
  - participating in activities that are normally undertaken by management; and
  - being remunerated on a "success fee" basis.
- Board Audit Committee has determined that the Auditor will not provide services where the Auditor may be required to review or audit its own work, including:
  - the preparation of accounting records;
  - the design and implementation of information technology systems;
  - conducting valuation, actuarial or legal services;
  - promoting, dealing in or underwriting securities; or
  - providing internal audit services.
- Board Audit Committee regularly reviews the performance and independence of the Auditor and whether the independence of this function has been maintained having regard to the provision of non-audit services. The Auditor has provided a written declaration to the Board regarding its independence at each reporting period and Board Audit Committee approval is required before the engagement of the Auditor to perform any non-audit service for a fee in excess of \$100,000.

The above Directors' statements are in accordance with the advice received from the Board Audit Committee.

### 16.3 Auditor's Independence Declaration

A copy of the Auditor's Independence Declaration as required under section 307C of the *Corporations Act 2001* is set out in the Financial Statements and forms part of this Directors' Report.

## 17. Corporate governance

DXFM's Corporate Governance Statement is set out in a separate section of the DEXUS Property Group Annual Report.

## 18. Rounding of amounts and currency

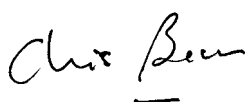

The Trust is a registered scheme of the kind referred to in Class Order 98/0100, issued by the Australian Securities & Investments Commission, relating to the "rounding off" of amounts in this Directors' Report and the Financial Statements. Amounts in this Directors' Report and Financial Statements have been rounded off in accordance with that Class Order to the nearest thousand dollars, unless otherwise indicated. All figures in this Directors' Report and the Financial Statements, except where otherwise stated, are expressed in Australian dollars.

## 19. Management representation

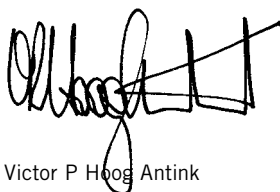

The Chief Executive Officer and Chief Financial Officer have reviewed the Trust's Financial Reporting processes, policies and procedures together with its risk management, internal control and compliance policies and procedures. Following that review it is their opinion that the Trust's financial records for the financial year have been properly maintained in accordance with the *Corporations Act 2001* and the Financial Statements and their notes comply with the accounting standards and give a true and fair view.

## 20. Directors' authorisation

This Directors' Report is made in accordance with a resolution of the Directors. The Financial Report was authorised for issue by the Directors on 17 August 2009. The Directors have the power to amend and reissue the financial report.

### Auditor's Independence Declaration

As lead auditor for the audit of DEXUS Industrial Trust for the year ended 30 June 2009, I declare that to the best of my knowledge and belief, there have been:

- a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- b) no contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of DEXUS Industrial Trust and the entities it controlled during the period.

The above Cash Flow Statements should be read in conjunction with the accompanying notes.

## **Note 1. Summary of significant accounting policies**

### **(a) Basis of preparation**

DEXUS Property Group stapled securities are quoted on the Australian Stock Exchange under the code "DXS" and comprise one unit in each of DDF, DIT, DOT and DXO. Each entity forming part of DXS continues as a separate legal entity in its own right under the *Corporations Act 2001* and is therefore required to comply with the reporting and disclosure requirements under the *Corporations Act 2001* and Australian Accounting Standards.

DEXUS Funds Management Limited (DXFM) as Responsible Entity for each of the Trusts may only unstack the Trusts if approval is obtained by special resolution of the stapled security holders.

This general purpose Financial Report for the year ended 30 June 2009 has been prepared in accordance with the requirements of the Trust's Constitutions, the *Corporations Act 2001*, *Australian Equivalents to International Financial Reporting Standards (AIFRS)* and Interpretations. Compliance with AIFRS ensures that the consolidated and parent Financial Statements and Notes comply with International Financial Reporting Standards (IFRS).

This Financial Report is prepared on the going concern basis and in accordance with historical cost conventions and has not been adjusted to take account of either changes in the general purchasing power of the dollar or changes in the values of specific assets, except for the valuation of certain non-current assets and financial instruments (refer notes 1(e), 1(n), 1(o), and 1(u)).

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

#### **Critical accounting estimates**

The preparation of Financial Statements in conformity with AIFRS may require the use of certain critical accounting estimates and management to exercise its judgement in the process of applying the Trust's accounting policies. Other than the estimations described in notes 1(e), 1(n), 1(o), and 1(u), no key assumptions concerning the future or other estimation of uncertainty at the reporting date have a significant risk of causing material adjustments to the Financial Statements in the next annual reporting period.

#### **Uncertainty around property valuations**

The global market for many types of real estate has been severely affected by the recent volatility in global financial markets. The lower levels of liquidity and volatility in the banking sector have translated into a general weakening of market sentiment towards real estate and the number of real estate transactions has significantly reduced.

Fair value of investment property is the price at which the property could be exchanged between knowledgeable, willing parties in an arm's length transaction. A "willing seller" is not a forced seller prepared to sell at any price. The best evidence of fair value is given by current prices in an active market for similar property in a comparable location and condition.

The current lack of comparable market evidence relating to pricing assumptions and market drivers means that there is less certainty in regard to valuations and the assumptions applied to valuation inputs. The period of time needed to negotiate a sale in this environment may also be significantly prolonged.

The fair value of investment property has been adjusted to reflect market conditions at the end of the reporting period. While this represents the best estimates of fair value as at the balance sheet date, the current market uncertainty means that if investment property is sold in future the price achieved may be higher or lower than the most recent valuation, or higher or lower than the fair value recorded in the Financial Statements.

### **(b) Principles of consolidation**

#### **(i) Controlled entities**

The Financial Statements incorporate an elimination of inter-entity transactions and balances to present the Financial Statements on a consolidated basis. Where control of an entity is obtained during a financial year, its results are included in the Income Statements from the date on which control is gained. The Financial Statements incorporate all the assets, liabilities and results of the parent and its controlled entities.

#### **(ii) Partnerships and joint ventures**

Where assets are held in a partnership or joint venture with another entity directly, the Trust's share of the results and assets of this partnership or joint venture are consolidated into the Income Statements and Balance Sheets of the Trust. Where assets are jointly controlled via ownership of units in single purpose unlisted unit trusts or shares in companies, the Trust applies equity accounting to record the operations of these investments (refer note 1(r)).

### **(c) Revenue recognition**

#### **(i) Rent**

Rental income is brought to account on a straight-line basis over the lease term for leases with fixed rent review clauses. In all other circumstances rental income is brought to account on an accruals basis. If not received at balance date, rental income is reflected in the Balance Sheets as a receivable. Recoverability of receivables is reviewed on an ongoing basis. Debts which are known to be not collectable are written off.

#### **(ii) Interest revenue**

Interest revenue is brought to account on an accruals basis using the effective interest rate method and, if not received at balance date, is reflected in the Balance Sheets as a receivable.

#### **(iii) Dividends and distribution revenue**

Revenue from dividends and distributions are recognised when declared. Amounts not received at balance date are included as a receivable in the Balance Sheets.

# DEXUS INDUSTRIAL TRUST

## NOTES TO THE FINANCIAL STATEMENTS

### FOR THE YEAR ENDED 30 JUNE 2009

CONTINUED

#### Note 1. Summary of significant accounting policies (continued)

##### (d) Expenses

Expenses are brought to account on an accruals basis and, if not paid at balance date, are reflected in the Balance Sheets as a payable.

##### (i) Property expenses

Property expenses include rates, taxes and other property outgoings incurred in relation to investment properties and property, plant and equipment where such expenses are the responsibility of the Trust.

##### (ii) Borrowing costs

Borrowing costs include interest, amortisation of discounts or premiums relating to borrowings, amortisation or ancillary costs incurred in connection with arrangement of borrowings and foreign exchange losses net of hedged amounts on borrowings, including trade creditors and lease finance charges. Borrowing costs are expensed as incurred unless they relate to qualifying assets.

Qualifying assets are assets which take more than 12 months to get ready for their intended use or sale. In these circumstances, borrowing costs are capitalised to the cost of the asset during the period of time that is required to complete and prepare the asset for its intended use or sale. Where funds are borrowed generally, borrowing costs are capitalised using a weighted average capitalisation rate.

##### (e) Derivatives and other financial instruments

##### (i) Derivatives

The Trust's activities expose it to a variety of financial risks including foreign exchange risk and interest rate risk. Accordingly, the Trust enters into various derivative financial instruments such as interest rate swaps, cross currency swaps and foreign exchange contracts to manage its exposure to certain risks. Written policies and limits are approved by the Board of Directors of the Responsible Entity, in relation to the use of financial instruments to manage financial risks. The Responsible Entity continually reviews the Trust's exposures and updates its treasury policies and procedures. The Trust does not trade in derivative instruments for speculative purposes. Even though derivative financial instruments are entered into for the purpose of providing the Trust with an economic hedge, the Trust has elected not to apply hedge accounting under AASB 139: *Financial Instruments: Recognition and Measurement* for interest rate swaps and foreign exchange contracts. Accordingly, derivatives including interest rate swaps, interest rate component of cross currency swaps and foreign exchange contracts, are measured at fair value with any changes in fair value recognised in the Income Statements.

##### (ii) Embedded derivatives

Derivatives embedded in other financial instruments or other host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of host contracts and the host contracts are not measured at fair value with changes in fair value recognised in the Income Statements.

##### (iii) Debt and equity instruments issued by the Trust

Financial instruments issued by the Trust are classified as either liabilities or as equity in accordance with the substance of the contractual arrangements. Accordingly, ordinary units issued by DIT are classified as equity.

Interest and distributions are classified as expenses or as distributions of profit consistent with the Balance Sheets classification of the related debt or equity instruments.

Transaction costs arising on the issue of equity instruments are recognised directly in equity (net of tax) as a reduction of the proceeds of the equity instruments to which the costs relate. Transaction costs are the costs that are incurred directly in connection with the issue of those equity instruments and which would not have been incurred had those instruments not been issued.

##### (iv) Financial guarantee contracts

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of the amount determined in accordance with AASB 137: *Provisions, Contingent Liabilities and Contingent Assets* and the amount initially recognised less cumulative amortisation, where appropriate.

The fair value of financial guarantees is determined as the present value of the difference in the net cash flows between the contractual payments under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations. Where guarantees in relation to loans or other payables of subsidiaries or associates are provided for no compensation, the fair values are accounted for as contributions and recognised as part of the cost of the investment.

##### (v) Other financial assets

Loans and other receivables are measured at amortised cost using the effective interest rate method less impairment.

##### (f) Goods and services tax/value added tax

Revenues, expenses and capital assets are recognised net of any amount of Australian/Canadian Goods and Services Tax (GST) or French and German Value Added Tax (VAT), except where the amount of GST/VAT incurred is not recoverable. In these circumstances the GST/VAT is recognised as part of the cost of acquisition of the asset or as part of the expense.

Cash flows are included in the Cash Flow Statements on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from or payable to the Australian Taxation Office is classified as operating cash flows.

##### (g) Taxation

Under current Australian income tax legislation DIT, is not liable for income tax provided it satisfies certain legislative requirements. DIT may be liable for income tax in jurisdiction where foreign property is held (i.e. United States, France, Germany, Canada).

Withholding tax payable on distributions received by the Trust from DEXUS Industrial Properties Inc (US REIT) and DEXUS US Properties Inc (US REIT II) are recognised as an expense when tax is withheld.

In addition, a deferred tax liability or asset and related deferred tax expense/benefit is recognised on differences between the tax cost base of US assets and liabilities in the Trust (held by US REIT and US REIT II) and their accounting carrying values at balance date. Any deferred tax liability or asset is calculated using a blend of the current withholding tax rate applicable to income distributions and the applicable US federal and state taxes.

Under current Australian income tax legislation, the unitholders will generally be entitled to receive a foreign tax credit for US withholding tax deducted from distributions paid by the US REIT and US REIT II.

DIT France Logistique SAS (DIT France), a wholly owned company of DIT, is liable for French corporation tax on its taxable income at the rate of 34.43%. In addition, a deferred tax liability or asset and its related deferred tax expense/benefit is recognised on differences between the tax cost base of the French real estate assets and their accounting carrying value at balance date.

DEXUS GLOG Trust, a wholly owned Australian sub-trust of DIT, is liable for German income tax on its German taxable income at the rate of 15.82%. In addition, a deferred tax liability or asset and its related deferred tax expense/benefit is recognised on differences between the tax cost base of the German real estate assets and their accounting carrying value at balance date.

DEXUS Canada Trust, a wholly owned Australian sub-trust of DIT, is liable for Canadian income tax on its Canadian taxable income at the rate of 25%. In addition, a deferred tax liability or asset and its related deferred tax expense/benefit is recognised on differences between the tax cost base of the Canadian real estate asset and the accounting carrying value at balance date.

#### (h) Distributions

In accordance with the Trust's Constitutions, the Trust distributes its distributable income to unitholders by cash or reinvestment.

Distributions are provided for when they are approved by the Board of Directors and declared.

#### (i) Repairs and maintenance

Plant is required to be overhauled on a regular basis and is managed as part of an ongoing major cyclical maintenance program. The costs of this maintenance are charged as expenses as incurred, except where they relate to the replacement of a component of an asset, in which case the replaced component will be derecognised and the replacement costs capitalised in accordance with note 1(n). Other routine operating maintenance, repair costs and minor renewals are also charged as expenses as incurred.

#### (j) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with financial institutions and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

#### (k) Receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method, which is based on the invoiced amount less provision for doubtful debts. Trade receivables are required to be settled within 30 days and are assessed on an ongoing basis for impairment. Receivables which are known to be uncollectible are written off. A provision for doubtful debts is established when there is objective evidence that the Trust will not be able to collect all amounts due according to the original terms of the receivables.

#### (l) Non-current assets (or disposal groups) held for sale and discontinued operations

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and investment property that are carried at fair value and contractual rights under insurance contracts, which are specifically exempt from this requirement.

#### (m) Other financial assets at fair value through profit and loss

Interests held by the Trust in controlled entities and associates are measured at fair value through profit and loss to reduce a measurement or recognition inconsistency.

#### (n) Property, plant and equipment

Property under development is carried at historical cost until the development is complete. All costs of development are capitalised against the property and are not depreciated. Upon completion of development, the assets are classified as investment property.

All other property, plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to its acquisition. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the trust and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Income Statements during the financial period in which they are incurred.

Property under development and all other property, plant and equipment are tested for impairment whenever events or changes in circumstances indicate that the carrying amounts exceed their recoverable amounts (refer note 1 (t)).

#### (o) Investment properties

Investment properties consist of properties held for long-term rental yields, capital appreciation or both. Investment properties are initially recognised at cost including transaction costs. Investment properties are subsequently recognised at fair value in the Financial Statements. Each valuation firm and its signatory valuer are appointed on the basis that they are engaged for no more than three consecutive valuations.

The basis of valuations of investment properties is fair value being the amounts for which the assets could be exchanged between knowledgeable willing parties in an arm's length transaction, based on current prices in an active market for similar properties in the same location and condition and subject to similar leases. In addition, an appropriate valuation method is used, which may include the discounted cash flow and the capitalisation method. Discount rates and capitalisation rates are determined based on industry expertise and knowledge, and where possible a direct comparison to third party rates for similar assets in a comparable location. Rental income from current leases and assumptions about future leases, as well as any expected operational cash outflows in relation to the property, are also reflected in fair value.

**DEXUS INDUSTRIAL TRUST**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2009**

CONTINUED

**Note 1. Summary of significant accounting policies (continued)**

**(o) Investment properties (continued)**

External valuations of the individual investments are carried out in accordance with the Trust's Constitutions, or may be earlier where the Responsible Entity believes there is a potential for a material change in the fair value of the property.

Changes in fair values are recorded in the Income Statements. The gain or loss on disposal of an investment property is calculated as the difference between the carrying amount of the asset at the date of disposal and the net proceeds from disposal and is included in the Income Statements in the year of disposal.

Subsequent redevelopment and refurbishment costs (other than repairs and maintenance) are capitalised to the investment property where they result in an enhancement in the future economic benefits of the property. Repairs and maintenance are accounted for in accordance with 1(i).

**(p) Leasing fees**

Leasing fees incurred are capitalised and amortised over the lease periods to which they relate.

**(q) Lease incentives**

Prospective lessees may be offered incentives as an inducement to enter into operating leases. These incentives may take various forms including cash payments, rent free periods, or a contribution to certain lessee costs such as fitout costs or relocation costs.

The costs of incentives are recognised as a reduction of rental income on a straight-line basis from the earlier of the date which the tenant has effective use of the premises or the lease commencement date to the end of the lease term. The carrying amount of the lease incentives is reflected in the fair value of investment properties.

**(r) Investments accounted for using the equity method**

Some property investments are held through the ownership of units in single purpose unlisted trusts or shares in unlisted companies where the Trust exerts significant influence but does not have a controlling interest. These investments are considered to be associates and the equity method of accounting is applied in the consolidated Financial Statements.

Under this method, the entity's share of the post-acquisition profits of associates is recognised in the consolidated Income Statements. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividends or distributions receivable from associates are recognised in the parent entity's Income Statements, while in the consolidated Financial Statements they reduce the carrying amount of the investment.

When the Trust's share of losses in an associate equal or exceed its interest in the associate (including any unsecured receivables) the Trust does not recognise any further losses unless it has incurred obligations or made payments on behalf of the associate.

**(s) Business combinations**

The purchase method of accounting is used for all business combinations, including business combinations involving entities or businesses under common control, regardless of whether equity instruments or other assets are acquired. Cost is measured as the fair value of the assets given up, shares issued or liabilities assumed at the date of exchange plus costs directly attributable to the acquisition. Where equity instruments are issued in an acquisition, the value of the instruments is their published market price as at the date of exchange unless, in rare circumstances, it can be demonstrated that the published price at the date of exchange is an unreliable indicator of fair value and that other evidence and valuation methods provide a more reliable measure of fair value. Transaction costs arising on the issue of equity instruments are recognised directly in equity.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at acquisition date. The excess of the acquisition cost over the fair value of the Trust's share of identifiable net assets acquired is recorded as goodwill. If the cost is less than the fair value of the Trust's share of the identifiable net assets acquired, the difference is recognised directly in the Income Statements.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange at the entity's incremental financing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparative terms and conditions.

**(t) Impairment of assets**

Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

## (u) Financial assets and liabilities

### (i) Classification

DIT has classified its financial assets and liabilities as follows:

Financial Asset/Liability	Classification	Valuation Basis	Reference
Cash and cash equivalents	Fair value through profit or loss	Fair value	Refer note 1(j)
Receivables	Loans and receivables	Amortised cost	Refer note 1(k)
Other financial assets	Loans and receivables	Amortised cost	Refer note 1(e)
Other financial assets	Fair value through profit or loss	Fair value	Refer note 1(m)
Payables	Financial liability at amortised cost	Amortised cost	Refer note 1(v)
Interest bearing liabilities	Financial liability at amortised cost	Amortised cost	Refer note 1(w)
Derivatives	Fair value through profit or loss	Fair value	Refer note 1(e)

Financial assets and liabilities are classified in accordance with the purpose for which they were acquired.

### (ii) Fair value estimation of financial assets and liabilities

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement and for disclosure purposes.

The fair value of financial instruments traded in active markets (such as publicly traded derivatives) is based on quoted market prices at the balance sheet date. The quoted market price used for financial assets held by the Trust is the current bid price. The appropriate quoted market price for financial liabilities is the current ask price.

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques including dealer quotes for similar instruments and discounted cash flows. In particular, the fair value of interest rate swaps and cross currency swaps are calculated as the present value of the estimated future cash flows, the fair value of forward exchange rate contracts is determined using forward exchange market rates at the balance sheet date, and the fair value interest rate option contracts are calculated as the present value of the estimated future cash flows taking into account the time value and implied volatility of the underlying instrument.

### (v) Payables

These amounts represent liabilities for amounts owing at balance date. The amounts are unsecured and are usually paid within 30 days of recognition.

### (w) Interest bearing liabilities

Subsequent to initial recognition at fair value, net of transaction costs incurred, interest bearing liabilities are measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Income Statements over the period of the borrowings using the effective interest rate method. Interest bearing liabilities are classified as current liabilities unless the Trust has an unconditional right to defer the liability for at least 12 months after the reporting date.

### (x) Earnings per unit

Earnings per unit are determined by dividing the net profit attributable to equity holders of the parent entity by the weighted average number of ordinary units outstanding during the year.

## (y) Foreign currency

Items included in the Financial Statements of the Trust are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The Financial Statements are presented in Australian dollars, which is the functional and presentation currency of the Trust.

### (i) Foreign currency transactions

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period end exchange rates of financial assets and liabilities denominated in foreign currencies are recognised in the Income Statements.

### (ii) Foreign operations

Foreign operations are located in the United States, France, Germany and Canada. These operations have a functional currency of US Dollars, Euros and Canadian Dollars respectively, which are translated into the presentation currency.

The assets and liabilities of the foreign operations are translated at exchange rates prevailing at the reporting date. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising, are recognised in the foreign currency translation reserve and recognised in profit or loss on disposal of the foreign operation.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at exchange rates prevailing at the reporting date.

### (z) Segment reporting

A business segment is a group of assets and operations engaged in providing services that are subject to risks and returns that are different to those of other business segments. A geographical segment is engaged in providing services within a particular geographic environment and is subject to risks and returns that are different from those of segments operating in other geographic environments.

**DEXUS INDUSTRIAL TRUST**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2009**

CONTINUED

**Note 1. Summary of significant accounting policies (continued)**

**(aa) Rounding of amounts**

The Trust is the kind referred to in Class Order 98/0100, issued by the Australian Securities & Investment Commission, relating to the rounding off of amounts in the Financial Report. Amounts in the Financial Report have been rounded off in accordance with that Class Order to the nearest thousand dollars, or in certain cases, the nearest dollar.

**(ab) New accounting standards and interpretations**

Certain new accounting standards and interpretations have been published that are not mandatory for the 30 June 2009 reporting period. Our assessment of the impact of these new standards and interpretations is set out below:

**(i) AASB 8 Operating Segments and AASB 2007-3 Amendments to Australian Accounting Standards arising from AASB 8 are effective for annual reporting periods commencing on or after 1 January 2009.**

AASB 8 will result in a significant change in the approach to segment reporting, as it requires adoption of a "management approach" to reporting on financial performance. The information being reported will be based on what the key decision-makers use internally for evaluating segment performance and deciding how to allocate resources to operating segments. The Trust intends to apply the revised standard from 1 July 2009. Application of AASB 8 may result in different segments, segment results and different type of information being reported in the segment note of the financial report. However, it will not affect any of the amounts recognised in the Financial Statements.

**(ii) Revised AASB 101 Presentation of Financial Statements and AASB 2007-8 Amendments to Australian Accounting Standards arising from AASB 101.**

The revised AASB 101 that was issued in September 2007 is applicable for annual reporting periods beginning on or after 1 January 2009. It requires the presentation of a statement of comprehensive income and makes changes to the Statements of Changes in Equity but will not affect any of the amounts recognised in the Financial Statements. If an entity has made a prior period adjustment or a reclassification of items in the Financial Statements, it will also need to disclose a third balance sheet (Statement of Financial Position), this one being as at the beginning of the comparative period. The Trust intends to apply the revised standard from 1 July 2009.

**(iii) Revised AASB 123 Borrowing Costs and AASB 2007-6 Amendments to Australian Accounting Standards arising from AASB 123 [AASB 1, AASB 101, AASB 107, AASB 111, AASB 116 & AASB 138 and Interpretations 1 & 12].**

The revised AASB 123 is applicable to annual reporting periods commencing on or after 1 January 2009. It has removed the option to expense all borrowing costs and – when adopted – will require the capitalisation of all borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset. There will be no impact on the Financial Report of the Trust, as the Trust already capitalise borrowing costs relating to qualifying assets.

**(iv) Revised AASB 3 Business Combinations, AASB 127 Consolidated and Separate Financial Statements and AASB 2008-3 Amendments to Australian Accounting Standards arising from AASB 3 and AASB 127.**

Revised accounting standards for business combinations and Consolidated Financial Statements were issued in March 2008 and are operative for annual reporting periods beginning on or after 1 July 2009, but may apply earlier. The Trust will apply the revised standards from 1 July 2009. However, the new rules generally apply only prospectively to transactions that occur after the application date of the standard. Their impact will therefore depend on whether the Trust will enter into any business combinations or other transactions that affect the level of ownership held in the controlled entities in the year of initial application.

The revised AASB 3 continues to apply the acquisition method to business combinations, but with some significant changes. For example, all payments to purchase a business are to be recorded at fair value at the acquisition date, with contingent payments classified as debt subsequently remeasured through the income statement. There is a choice on an acquisition-by-acquisition basis to measure the non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net assets. All acquisition-related costs must be expensed. This is different to the Trust's current policy which is set out in note 1(s) above. For example, under the new rules:

The revised AASB 127 requires the effects of all transactions with non-controlling interests to be recorded in equity if there is no change in control and these transactions will no longer result in goodwill or gains and losses. The standard also specifies the accounting when control is lost. Any remaining interest in the entity is remeasured to fair value, and a gain or loss is recognised in profit or loss.

**(v) AASB 2008-7 Amendments to Australian Accounting Standards – Cost of an Investment in a Subsidiary, Jointly Controlled Entity or Associate (effective 1 July 2009).**

In July 2008, the AASB approved amendments to AASB 1 *First-time Adoption of International Financial Reporting Standards* and AASB 127 *Consolidated and Separate Financial Statements*. The Trust will apply the revised rules prospectively from 1 July 2009. After that date, all dividends received from investments in subsidiaries, jointly controlled entities or associates will be recognised as revenue, even if they are paid out of pre-acquisition profits, but the investments may need to be tested for impairment as a result of the dividend payment. Under the entity's current policy, these dividends are deducted from the cost of the investment. Furthermore, when a new intermediate parent entity is created in internal reorganisations it will measure its investment in subsidiaries at the carrying amounts of the net assets of the subsidiary rather than the subsidiary's fair value.

**(vi) Amendments arising from the Annual Improvements Project. In July 2008, AASB 2008-5 Amendments to Australian Accounting Standards arising from the Annual Improvements Project was issued.**

This comprised of amendments to various standards and is effective from 1 January 2009. The following are considered relevant to the Trust:

**AASB 101 (Amendment) Presentation of Financial Statements.**

The amendment clarifies that some rather than all financial assets and liabilities classified as held for trading in accordance with AASB 139 *Financial Instruments: Recognition and Measurement* are examples of current assets and liabilities respectively. The Trust will apply the AASB 139 (Amendment) from 1 July 2009. This clarification will enable the Trust to distinguish between current and non-current derivative balances.

**AASB 123 (Amendment) Borrowing Costs.**

The definition of borrowing costs has been amended so that interest expense is calculated using the effective interest method defined in AASB 139 *Financial Instruments: Recognition and Measurement*. This eliminates the inconsistency of terms between AASB 139 and AASB 123. The Trust will apply the AASB 123 (Amendment) prospectively to the capitalisation of borrowing costs on qualifying assets from 1 July 2009. This is not expected to have any impact on the amounts recognised in the entity's Financial Statements.

**AASB 127 (Amendment) Consolidated and Separate Financial Statements (effective from 1 January 2009).**

Where an investment in a subsidiary that is accounted for under AASB 139 *Financial Instruments: Recognition and Measurement* is classified as held for sale under AASB 5 *Non-current Assets Held for Sale and Discontinued Operations*, AASB 139 would continue to be applied. The amendment will not have an impact on the Trust's operations because it is the Trust's policy for an investment in subsidiary to be recorded at fair value through profit or loss in the standalone accounts of each entity.

**AASB 128 (Amendment) Investments in Associates (and consequential amendments to AASB 132 Financial Instruments: Presentation and AASB 7 Financial Instruments: Disclosures) (effective from 1 January 2009).**

An investment in associate is treated as a single asset for the purposes of impairment testing and any impairment loss is not allocated to specific assets included within the investment, for example, goodwill. Reversals of impairment are recorded as an adjustment to the investment balance to the extent that the recoverable amount of the associate increases. The Trust will apply the AASB 128 (Amendment) to impairment tests related to investment in associates and any related impairment losses from 1 July 2009. Due to the prospective application this will not affect any of the amounts recognised at 30 June 2009.

**AASB 136 (Amendment) Impairment of Assets.**

Where fair value less costs to sell is calculated on the basis of discounted cash flows, disclosures equivalent to those for a value-in-use calculation should be made. The Trust will apply the AASB 136 (Amendment) and provide the required disclosure where applicable for impairment tests from 1 July 2009. This is not expected to have an impact on the amounts recognised in the Trust's Financial Statements.

**AASB 140 (Amendment) Investment Property (and consequential amendments to AASB 116).**

Under this amendment, property that is under construction or development for future use as investment property falls within the scope of AASB 140. Where the fair value model is applied, such property is, therefore, measured at fair value. However, where fair value of investment property under construction is not reliably measurable, the property is measured at cost until the earlier of the date construction is completed and the date at which fair value becomes reliably measurable. The Trust will apply the AASB 140 (Amendment) from 1 July 2009.

**(vii) AASB 2009-2 Amendments to Australian Accounting Standards – Improving Disclosures about Financial Instruments (effective for annual periods beginning on or after 1 January 2009).**

In April 2009, the AASB published amendments to AASB 7 *Financial Instruments: Disclosure* to improve the information that entities report about their liquidity risk and the fair value of their financial instruments. The amendments require fair value measurement disclosures to be classified into a new three-level hierarchy and additional disclosures for items whose fair value is determined by valuation techniques rather than observable market values. The AASB also clarified and enhanced the existing requirements for the disclosure of liquidity risk of derivatives. The Trust will apply the amendments from 1 January 2009. They will not affect any of the amounts recognised in the Financial Statements.

**(viii) AASB 2009-3 Amendments to Australian Accounting Standards – Embedded Derivatives (effective for annual periods ending on or after 30 June 2009).**

The amendments made by the AASB to Interpretation 9 and AASB 139 clarify that where a financial asset is reclassified out of the "at fair value through profit or loss" category, all derivatives embedded in that asset have to be assessed and, if necessary, separately accounted for in Financial Statements. The Trust will apply the amendments retrospectively for the financial half-year ending 31 December 2009. There will be no impact on the Trust's Financial Statements as at 31 December 2009 as it has not reclassified any financial assets out of the "at fair value through profit or loss" category.

### (b) Non-current assets pledged as security

Refer to note 21 for information on non-current assets pledged as security by the parent entity and its controlled entities.

### (c) Developments

#### Boundary Road, North Laverton, VIC

In October 2007, DIT entered into an agreement to lease and build an office warehouse facility for Best Bar (VIC) Pty Ltd. This project was completed in August 2008. The total costs for the project is \$11.9 million.

In August 2006, DIT entered into an agreement to lease and build a distribution centre for Foster's Australia Limited. Practical completion was achieved on 6 July 2007 with a development cost of \$33.1 million. This property was transferred to investment properties at 31 December 2008.

The site includes 19.3 hectares of serviced land, 24.5 hectares of unserviced land with conditional subdivision approval and 48.6 hectares of "englobo" land undergoing rezoning from rural to industrial use.

#### 3 Brookhollow Avenue, Baulkham Hills, NSW

On 13 March 2009, subdivision approval was received for 2.1 hectare of vacant land accommodating 23,083 square metres of lettable area.

**Terms and conditions**

Each stapled security ranks equally with all other stapled securities for the purposes of distributions and on termination of the Trust.

Each stapled security entitles the holder to one vote, either in person or by proxy, at a meeting of the Trust.

(c) Issue of securities

During the current year DXS carried out two separate security issue programs issuing a total of 1,560.5 million securities to raise \$1,062.2 million excluding equity raising costs of \$32.7 million. This comprised of the following:

**December 2008 Institutional placement and share purchase plan**

On 10 December 2008 pursuant to an institutional placement 391.7 million securities were issued at a price of 14.5 cents per unit.

On 6 February 2009 pursuant to a security purchase plan 16.4 million securities were issued at a price of 13.3 cents per unit.

**May 2009 Institutional placement, institutional entitlement offer and the retail entitlement offer**

On 6 May 2009 pursuant to an institutional placement, institutional entitlement offer and the retail entitlement offer for which valid applications were received, a total of 1025.1 million securities were issued at a price of 7.79 cents per unit.

On 28 May 2009 pursuant to a retail entitlement offer 127.2 million securities were issued at a price of 7.79 cents per unit.

(d) Distribution reinvestment plan

Under the distribution reinvestment plan (DRP), stapled security holders may elect to have all or part of their distribution entitlements satisfied by the issue of new stapled securities, rather than being paid in cash.

On 29 August 2008, 45,087,887 units were issued at a unit price of 12.24 cents in relation to the June 2008 distribution period.

On 27 February 2009, 55,280,692 units were issued at a unit price of 25.62 cents in relation to the December 2008 distribution period.

**Approval of issues of Stapled Securities to an underwriter in connection with issues under a Distribution Reinvestment Plan**

At the Extraordinary General Meeting held on 6 February 2009 by DXFM, as Responsible Entity for DDF, DIT, DOT and DXO, security holders resolved to authorise DXFM, as Responsible Entity, to issue stapled securities, each comprising a unit in each of the above mentioned trusts (Stapled Securities), to an underwriter or persons procured by an underwriter within a period of 24 months from the date of the meeting in connection with any issue of Stapled Securities under the DXS distribution reinvestment plan.

Such an issue will not be counted for the purposes of the calculation of the Trusts' annual placement limit of 15% under the ASX Listing Rules.

# DEXUS INDUSTRIAL TRUST

## NOTES TO THE FINANCIAL STATEMENTS

### FOR THE YEAR ENDED 30 JUNE 2009

CONTINUED

#### Note 28. Financial risk management

To ensure the effective and prudent management of the Trust's capital and financial risks, DIT (as part of DXS) has a well established framework consisting of a Board Finance Committee and a Capital Markets Committee. The Board Finance Committee is accountable to and primarily acts as an advisory body to the DXFM Board and includes three Directors of the DXFM Board. Its responsibilities include reviewing and recommending financial risk management policies and funding strategies for approval.

The Capital Markets Committee is a management committee that is accountable to both the Board Finance Committee and the Executive Committee. It convenes at least quarterly and conducts a review of financial risk management exposures including liquidity, funding strategies and hedging. It is also responsible for the development of financial risk management policies and funding strategies for recommendation to the Board Finance Committee, and the approval of treasury transactions within delegated limits and powers.

Further information on the DEXUS Property Group governance structure, including terms of reference, is available at [www.dexus.com](http://www.dexus.com)

##### (1) Capital risk management

The Trust manages its capital to ensure that entities within the Trust will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance.

The capital structure of the Trust consists of debt (see note 21), cash and cash equivalents, and equity attributable to unitholders. The capital structure is monitored and managed in consideration of a range of factors including:

- the cost of capital and the financial risks associated with each class of capital;
- gearing levels and other covenants;
- potential impacts on net tangible assets and unitholder's equity;
- potential impacts on DXS's credit rating; and
- other market factors and circumstances.

To minimise the potential impacts of foreign exchange risk on the Trust's capital structure, the Trust's policy is to hedge the majority of its foreign asset and liability exposures. Consequently the size of the assets and liabilities on the Balance Sheets (translated into Australian Dollars) and gearing ratios will rise and fall as exchange rates fluctuate. This policy ensures that net tangible assets are not materially affected by currency movements (refer foreign exchange risk below).

The gearing ratio at 30 June 2009 was 67.8% (as detailed below).

	Consolidated		Parent entity	
	2009 \$'000	2008 \$'000	2009 \$'000	2008 \$'000
<b>Gearing ratio</b>				
Interest bearing liabilities <sup>1</sup>	1,363,254	1,153,712	1,199,384	1,028,289
Total tangible assets <sup>2</sup>	2,010,326	2,292,350	1,912,631	2,160,705
<b>Gearing ratio<sup>3</sup></b>	<b>67.8%</b>	<b>50.3%</b>	<b>62.7%</b>	<b>47.6%</b>

1 Interest bearing liabilities excludes deferred borrowing costs as reported internally to management.

2 Total tangible assets comprise total tangible assets less derivatives and deferred and current tax balances as reported internally to management.

3 Gearing is managed centrally for DXS. The gearing ratio as disclosed in the DEXUS Property Group Annual Report 2009 is 32% (refer note 30 (1) of the DXS Financial Statements).

The Trust is not rated by ratings agencies, however, DXS has been rated BBB+ by Standard and Poor's (affirmed in April 2009). The Trust considers potential impacts upon the rating when assessing the strategy and activities of the Trust and regards those impacts as an important consideration in its management of the Trust's capital structure.

The Responsible Entity for DIT (DXFM) has been issued with an Australian Financial Services Licence (AFSL). The licence is subject to certain capital requirements including the requirement to hold minimum net tangible assets (of \$5 million), and maintaining a minimum level of surplus liquid funds. Furthermore, the Responsible Entity maintains trigger points in accordance with the requirements of the licence. These trigger points maintain a headroom value above the AFSL requirements and the entity has in place a number of processes and procedures should a trigger point be reached.

During the period, the Responsible Entity complied with the AFSL requirements.

##### (2) Financial risk management

The Trust's activities expose it to a variety of financial risks: credit risk, market risk (including currency risk and interest rate risk), and liquidity risk. Financial risk management is not managed at the individual trust level, but holistically as part of DXS. DXS's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Trust.

Accordingly, the Trust enters into various derivative financial instruments such as interest rate swaps, cross currency interest rate swaps, and foreign exchange contracts to manage its exposure to certain risks. The Trust does not trade in derivative instruments for speculative purposes. The Trust uses different methods to measure the different types of risks to which it is exposed, including monitoring the current and forecast levels of exposure, and conducting sensitivity analyses.

Risk management is implemented by a centralised treasury department (Group Treasury) whose members act under written policies that are endorsed by the Board Finance Committee and approved by the Board of Directors of the Responsible Entity. Group Treasury identifies, evaluates and hedges financial risks in close cooperation with the Trust's business units. The treasury policies approved by the Board of Directors cover overall treasury risk management, as well as policies and limits covering specific areas such as liquidity risk, interest rate risk, foreign exchange risk, credit risk and the use of derivatives and other financial instruments. In conjunction with its advisers, the Responsible Entity continually reviews the Trust's exposures and (at least annually) updates its treasury policies and procedures.

#### (a) Liquidity risk

Liquidity risk is the risk that the Trust will not have sufficient available funds to meet financial obligations in an orderly manner when they fall due or at an acceptable cost.

The Trust identifies and manages liquidity risk across short, medium and long-term categories:

- short-term liquidity management includes continuously monitoring forecast and actual cash flows;
- medium-term liquidity management includes maintaining a level of committed borrowing facilities above the forecast committed debt requirements (liquidity headroom buffer). Committed debt includes future expenditure that has been approved by the Board or Investment Committee (as required within delegated limits), and may also include projects that have a very high probability of proceeding, taking into consideration risk factors such as the level of regulatory approval, tenant pre-commitments and portfolio considerations; and
- long-term liquidity risk is managed through ensuring an adequate spread of maturities of borrowing facilities so that refinancing risk is not concentrated, and ensuring an adequate diversification of funding sources where possible subject to market conditions.

#### Refinancing risk

A key liquidity risk is the Trust's ability to refinance its current debt facilities. As the Trust's debt facilities mature, they are usually required to be refinanced by extending the facility or replacing the facility with an alternative form of capital.

The refinancing of existing facilities may also result in margin price risk, whereby market conditions may result in an unfavourable change in credit margins on the refinanced facilities. The Trust's key risk management strategy for margin price risk on refinancing is to spread the maturities of debt facilities over different time periods to reduce the volume of facilities to be refinanced and the exposure to market conditions in any one period.

For derivative assets and liabilities that have floating rate interest cash flow, future cash flow have been calculated using static interest rate prevailing at 30 June 2009. Refer to note 12 Derivative Financial Instruments for fair value of derivatives.

(b) Market risk

Market risk is the risk that the fair value or future cash flows of the Trust's financial instruments will fluctuate because of changes in market prices. The market risks that the Trust is exposed to are detailed further below.

(i) Interest rate risk

Interest rate risk is the risk that fluctuating interest rates will cause an adverse impact on interest payable (or receivable), or an adverse change on the capital value (present market value) of long-term fixed rate instruments.

Interest rate risk for the Trust arises from interest bearing financial assets and liabilities that the Trust holds. Borrowings issued at variable rates expose the Trust to cash flow interest rate risk. Borrowings issued at fixed rates expose the Trust to fair value interest rate risk.

The primary objective of the Trust's risk management policy for interest rate risk is to minimise the effects of interest rate movements on the Trust's portfolio of financial assets and liabilities and financial performance. The policy sets out the minimum and maximum hedging amounts for the Trust which is managed on a portfolio basis.

Cash flow interest rate risk on borrowings is managed through the use of interest rate swaps, whereby a floating interest rate exposure is converted to a fixed interest rate exposure. Fair value interest rate risk on borrowings is also managed through the use of interest rate swaps, whereby a fixed interest exposure is converted to a floating interest rate exposure. The mix of fixed and floating rate exposures is monitored regularly to ensure that the interest rate exposure on the Trust's cash flows is managed within the parameters defined by the Group Treasury Policy.

The Trust holds borrowings in multiple currencies with both fixed and floating rate exposures and is exposed to interest rate risk related to each particular currency.

The net notional amount of fixed rate debt and interest rate swaps in place in each year and the weighted average effective hedge rate per currency is set out in the next table.

Consolidated 30 June 2009	June 2010 \$'000	June 2011 \$'000	June 2012 \$'000	June 2013 \$'000	> June 2014 \$'000
<b>Interest rate swaps</b>					
A\$ hedged <sup>1</sup>	431,400	390,567	357,667	271,667	75,000

€ hedged <sup>1</sup>	140,000	137,500	127,500	105,000	70,000
€ hedge rate (%) <sup>2</sup>	5.20%	5.16%	5.24%	5.54%	6.27%
C\$ hedged <sup>1</sup>	70,000	70,000	70,000	70,000	70,000
C\$ hedge rate (%) <sup>2</sup>	4.77%	4.77%	4.77%	4.77%	4.77%
<b>Combined fixed debt and swaps (A\$ equivalent)</b>	<b>1,286,757</b>	<b>1,280,484</b>	<b>1,195,834</b>	<b>1,097,330</b>	<b>755,073</b>
<b>Hedge rate (%)</b>	<b>5.40%</b>	<b>5.39%</b>	<b>5.44%</b>	<b>5.26%</b>	<b>5.06%</b>

1 Average amounts for the period. Hedged amounts above do not include potential hedges that are cancellable at the counterparty's option.

2 The above hedge rates do not include margins payable on borrowings.

#### Sensitivity on interest expense

The table below shows the impact on unhedged net interest expense (excluding non-cash items) of a 50 basis points increase or decrease in short-term and long-term market interest rates. The sensitivity on cash flow arises due to the impact that a change in interest rates will have on the Trust's floating rate debt and derivative cash flows. Net interest expense is only sensitive to movements in markets rates to the extent that floating rate debt is not hedged.

	Consolidated		Parent entity	
	2009 (+/-) \$'000	2008 (+/-) \$'000	2009 (+/-) \$'000	2008 (+/-) \$'000
+/- 0.50% (50 basis points) A\$	595	1,820	595	1,820
+/- 0.50% (50 basis points) US\$	(65)	(634)	(505)	(634)
+/- 0.50% (50 basis points) €	13	52	417	52
+/- 0.50% (50 basis points) C\$	-	-	-	-
<b>Total A\$ equivalent</b>	<b>536</b>	<b>1,246</b>	<b>697</b>	<b>942</b>

The increase or decrease in interest expense is proportional to the increase or decrease in interest rates.

#### Sensitivity on fair value of interest rate swaps

The table below shows the impact on the Income Statements for changes in the fair value of interest rate swaps for a 50bps increase and decrease in short-term and long-term market interest rates. The sensitivity on the fair value arises from the impact that changes in market rates will have on the mark-to-market valuation of the interest rate swaps. The fair value of interest rate swaps is calculated as the present value of estimated future cash flows on the instruments. Cash flows are discounted using the forward price curve of interest rates at the end of the reporting period. Although interest rate swaps are transacted for the purpose of providing the Trust with an economic hedge, the Trust has elected not to apply hedge accounting to its interest rate derivatives. Accordingly, gains or losses arising from changes in the fair value are reflected in the Income Statements.

	Consolidated		Parent entity	
	2009 (+/-) \$'000	2008 (+/-) \$'000	2009 (+/-) \$'000	2008 (+/-) \$'000

**FOR THE YEAR ENDED 30 JUNE 2009**

CONTINUED

**Note 28. Financial risk management (continued)**

**(2) Financial risk management (continued)**

**(b) Market risk (continued)**

*(ii) Foreign exchange risk (continued)*

Foreign exchange risk is the risk that movements in exchange rates used to convert foreign currency revenues, expenses, assets, or liabilities to the Trust's functional currency will have an adverse effect on the Trust.

The Trust operates internationally with investments in the United States, France, Germany and Canada. As a result of these activities, the Trust has foreign exchange risk, arising primarily from:

- translation of investments in foreign operations;
- borrowings and cross currency swaps denominated in foreign currencies; and
- earnings distributions and other transactions denominated in foreign currencies.

The objective of the Trust's foreign exchange risk management policy is to ensure that movements in exchange rates have minimal adverse impact on the Trust's foreign currency assets and liabilities, and net foreign currency cash flows as outlined below.

*Foreign currency assets and liabilities*

Exposure to foreign exchange risk is minimised by predominantly matching the currency of the Trust's debt with the currency of its investment to form a natural hedge against movements in exchange rates. This policy reduces the risk that movements in foreign exchange rates will have an adverse impact on security holder's equity and net tangible assets.

Where Australian dollar borrowings are used to fund the foreign currency investment, the Trust may transact cross currency swaps for the purpose of providing an alternate source of foreign currency funding whilst maintaining the natural hedge. In these instances the Trust has committed foreign currency borrowing capacity in place that can replace the foreign currency amounts that are due under the cross currency swaps.

The Trust's net foreign currency exposures for net investments in foreign operations and hedging instruments are as follows:

	Consolidated		Parent entity	
	2009 \$'000	2008 \$'000	2009 \$'000	2008 \$'000

<b>Total % hedged</b>	<b>113%</b>	<b>92%</b>	<b>85%</b>	<b>102%</b>

1 Assets exclude working capital and cash as reported internally to management. Parent entity assets comprise related party interest bearing loans and receivables.

2 Net borrowings is equal to interest bearing liabilities less cash. Parent entity debt comprises related party interest bearing liabilities.

3 Cross currency swap amounts comprise the foreign currency denominated leg of the cross currency swaps.

*Sensitivity on equity (foreign currency translation reserve)*

The table below shows the impact on the foreign currency translation reserve for changes in the translated value of foreign currency assets and liabilities for an increase and decrease in foreign exchange rates per currency. The increase and decrease in cents per currency has been based on the historical movements of the Australian dollar relative to each currency<sup>1</sup>. The cents per currency has been applied to the spot rates prevailing at 30 June 2009 (see footnote below). The impact on the foreign currency translation reserve arises as the translation of the Trust's foreign currency assets and liabilities are recorded (in Australian Dollars) directly in the foreign currency translation reserve.

		Consolidated		Parent entity	
		2009 \$'000	2008 \$'000	2009 \$'000	2008 \$'000
+ 15.7 cents (19%) (2008: 9.6 cents)	US\$ (A\$ equivalent)	(11,917)	6,715	–	–
– 15.7 cents (19%) (2008: 9.6 cents)	US\$ (A\$ equivalent)	17,635	(8,203)	–	–
+ 6.4 cents (11%) (2008: 6.1 cents)	€ (A\$ equivalent)	(110)	(313)	–	–
– 6.4 cents (11%) (2008: 6.1 cents)	€ (A\$ equivalent)	137	383	–	–
+ 7.3 cents (8%) (2008: 12.6 cents)	C\$ (A\$ equivalent)	(1,417)	(159)	–	–
– 7.3 cents (8%) (2008: 12.6 cents)	C\$ (A\$ equivalent)	1,656	194	–	–

1 The sensitivity on market rates has been based on the standard deviation of the annual change in the Australian dollar exchange rate per currency since 1984 or commencement.

2 Exchange rates at 30 June 2009: A\$/US\$ 0.8114 (2008: 0.9626), A\$/€ 0.5751 (2008: 0.6096), A\$/C\$ 0.9379 (2008: 0.9715).

*Sensitivity on fair value of cross currency swaps*

The table below shows the impact on the Income Statements for changes in the fair value of cross currency swaps for a 50 basis point increase and decrease in market rates. The sensitivity on the fair value arises from the impact that changes in short-term and long-term market rates will have on the interest rate mark-to-market valuation of the cross currency swaps<sup>1</sup>. The Trust has elected not to apply hedge accounting to its cross currency swaps. Accordingly, gains or losses arising from changes in the fair value are reflected in the Income Statements.

		Consolidated		Parent entity	
		2009 (+/-) \$'000	2008 (+/-) \$'000	2009 (+/-) \$'000	2008 (+/-) \$'000
+ 0.50% (50 basis point)	US\$ (A\$ Equivalent)	(3)	–	(3)	–
+ 0.50% (50 basis point)	€ (A\$ Equivalent)	2	–	2	–
+ 0.50% (50 basis point)	C\$ (A\$ Equivalent)	(91)	87	(91)	87

1 Note the above sensitivity is reflective of how changes in interest rates will affect the valuation of the cross currency swaps. The effect of movements in foreign exchange rates on the valuation of cross currency swaps is reflected in the foreign currency translation reserve sensitivity.

*Net foreign currency denominated cash flows*

Foreign exchange risk exists in relation to net cash flows and transactions with foreign operations that are denominated in foreign currencies. This risk is managed through the use of forward foreign exchange contracts (after taking into account the natural hedging through foreign denominated interest expense).

Forward foreign exchange contracts outstanding at 30 June 2009 are as follows:

	2009 To pay US\$ million	2009 To receive A\$ million	2009 Weighted average exchange rate	2008 To pay US\$ million	2008 To receive A\$ million	2008 Weighted average exchange rate
1 year or less	2.9	4.1	0.6902	4.8	6.9	0.6844
Over 1 and less than 2 years	2.8	4.0	0.7084	2.9	4.1	0.6877
More than 2 years	5.8	8.4	0.6865	8.6	12.5	0.6898

- 15.7 cents (19%) (2008: 9.6 cents)	US\$ (A\$ equivalent)	(3,222)	(1,697)	(3,222)	(1,697)

1 The sensitivity on market rates has been based on the standard deviation of the annual change in the Australian dollar exchange rate per currency since 1984 or commencement.

2 Exchange rates at 30 June 2009: A\$/US\$ 0.8114 (2008: 0.9626), A\$/€ 0.5751 (2008: 0.6096), A\$/C\$ 0.9379 (2008: 0.9715).

**(c) Credit risk**

Credit risk is the risk of loss to the Trust in the event of non-performance by the Trust's financial instrument counterparties. Credit risk arises from cash and cash equivalents, loans and receivables, and derivative financial instruments. The Trust and parent entity have exposure to credit risk on all financial assets.

DXS manages this risk by:

- adopting a process for determining an approved counterparty, with consideration of qualitative factors as well as the counterparty's rating;
- regularly monitoring counterparty exposure within approved credit limits that are based on the lower of a S&P, Moody's and Fitch credit rating. The exposure includes the current market value of in-the-money contracts as well as potential exposure, which is measured with reference to credit conversion factors as per APRA guidelines;
- entering into ISDA Master Agreements once a financial institution counterparty is approved;
- ensuring tenants, together with approved credit limits, are approved and ensuring that leases are undertaken with a large number of tenants;
- for some trade receivables, obtaining collateral where necessary in the form of bank guarantees and tenant bonds; and
- regularly monitoring loans and receivables on an ongoing basis.

A minimum S&P rating of A- (or Moody's and Fitch equivalent) is required to become or remain an approved counterparty. As at 30 June 2009, the lowest rating of counterparties that the Trust is exposed to was A (S&P).

Financial instrument transactions are spread among a number of approved financial institutions within specified credit limits to minimise the Trust's exposure to any one counterparty. As a result, there is no significant concentration of credit risk for financial instruments.

The maximum exposure to credit risk at 30 June 2009 is the carrying amount of financial assets recognised on the Balance Sheets of the Trust and parent entity.

As at 30 June 2009, the Trust and the parent entity have no significant concentrations of credit risk for trade receivables. Trade receivable balances and the credit quality of trade debtors are consistently monitored on an ongoing basis. As a result, the Trust and parent entity's exposure to bad debts is not significant.

For the consolidated entity, the ageing analysis of loans and receivables net of provisions at 30 June 2009 is (\$'000): 12,702.0 (0-30 days), 485.9 (31-60 days), 78.1 (61-90 days), 769.9 (91+ days). The ageing analysis of loans and receivables net of provisions at 30 June 2008 is (\$'000): 3,345.4 (0-30 days), 708.0 (31-60 days), 312.6 (61-90 days), 719.0 (91+ days)). Amounts over 31 days are past due, however, no receivables are impaired.

For the parent entity, the ageing analysis for loans and receivables net of provisions at 30 June 2009 is (\$'000): 8,739.8 (0-30 days), 127.1 (31-60 days), 0.9 (61-90 days), 6.2 (91+ days). The ageing analysis of loans and receivables net of provisions for the parent entity at 30 June 2008 is (\$'000): 30,621.3 (0-30 days), 154.9 (31-60 days), 46.9 (61-90 days), 68.9 (91+ days). Amounts over 31 days are past due, however, no receivables are impaired.

The credit quality of financial assets that are neither past due nor impaired is consistently monitored to ensure that there are no adverse changes in credit quality.

**(d) Fair value of financial instruments**

Fair value interest rate risk is the risk of an adverse change in the net fair (or market) value of an asset or liability due to movements in interest rates.

At 30 June 2009, the carrying amounts and fair value of financial assets and liabilities are shown as follows:

	Consolidated		Consolidated	
	2009 Carrying amount <sup>1</sup> \$'000	2009 Fair value <sup>2</sup> \$'000	2008 Carrying amount <sup>1</sup> \$'000	2008 Fair value <sup>2</sup> \$'000

<b>Total financial liabilities</b>	<b>1,372,486</b>	<b>1,372,486</b>	<b>1,068,412</b>	<b>1,068,412</b>

1 Carrying value is equal to the value of the financial instruments on the Balance Sheets.

2 Fair value is the amount for which the financial instrument could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction, however, not recognised on the Balance Sheets.

The fair value of fixed rate interest bearing liabilities has been determined by discounting the expected future cash flows by the relevant market rates. The discount rates applied range from 0.60% to 4.71% for US\$ and 3.08% to 4.78% for A\$. The fair value of floating rate interest bearing liabilities has been determined by adjusting for transaction costs where appropriate. Refer note 1(u) for fair value methodology for financial assets and liabilities.

**DEXUS INDUSTRIAL TRUST**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2009**

CONTINUED

**Note 29. Contingent liabilities**

The Trust together with DDF, DOT and DXO is also a guarantor of a A\$300.0 million and US\$210.0 million syndicated bank debt facility and a total of A\$1,182.5 million and US\$120.0 million (A\$147.9 million) of bank bilateral facilities, a total of A\$450.0 million of medium-term notes and a total of US\$400.0 million (A\$493.0 million) of privately placed notes, which have all been negotiated to finance the Trust and other entities within DXS. The guarantees have been given in support of debt outstanding and drawn against these facilities.

The guarantees are issued in respect of the Trust and do not constitute an additional liability to those already existing in interest bearing liabilities on the Balance Sheets.

The Directors of the Responsible Entity are not aware of any other contingent liabilities in relation to the Trust, other than those disclosed in the Financial Statements, which should be brought to the attention of security holders as at the date of completion of this report.

**Note 30. Commitments**

**(a) Capital commitments**

The following amounts represent capital expenditure on investment properties contracted at the reporting date but not recognised as liabilities payable:

**Capital expenditure commitments in relation to development works:**

	Consolidated		Parent entity	
	2009 \$'000	2008 \$'000	2009 \$'000	2008 \$'000
<b>Not longer than one year</b>

<b>Total lease receivable commitments</b>	<b>751,208</b>	<b>490,219</b>	<b>369,692</b>	<b>387,119</b>

**Note 31. Related parties**

**Responsible Entity**

DXFM is the Responsible Entity of the Trust.

**Responsible Entity fees**

Under the terms of the Trust's Constitution, the Responsible Entity is entitled to receive fees in relation to the management of the Trust. DXFM's parent entity, DXH is entitled to be reimbursed for administration expenses incurred on behalf of the Trust. DEXUS Property Services Pty Limited (DXPS), a wholly owned subsidiary of DXH is entitled to property management fees from the Trust.

## Related party transactions

Prior to DXO's acquisition of the remaining 50% interest in DXH on 21 February 2008, all related party transactions were conducted on normal commercial terms and conditions unless otherwise stated. Following the acquisition, Responsible Entity fees in relation to DXS assets moved to cost recovery. All agreements with third party funds remain unchanged.

## Investments

On 21 February 2008, DXO purchased the remaining 50% interest in DXH from FAP. Deutsche Bank and RREEF ceased to be related parties on this date. As a result amounts shown in the current period are nil and amounts shown in the prior period reflect transactions from 1 July 2007 to 20 February 2008.

## DEXUS Funds Management Limited and its related entities

There were a number of transactions and balances between the Trust and the Responsible Entity and its related entities as detailed below:

	Consolidated		Parent entity	
	2009 \$	2008 \$	2009 \$	2008 \$
Responsible Entity fees paid and payable	5,598,240	7,149,996	5,598,240	7,149,996
Property management fees to DXPS	3,147,185	2,768,792	2,610,441	2,220,905
Recovery of administration expenses paid to DXH	4,198,336	1,223,351	3,571,297	1,022,403
Aggregate amounts payable to the Responsible Entity at reporting date	443,560	464,749	443,560	464,749
Property management fees payable at reporting date	655,401	809,868	543,279	708,260

## Trust within DXS

Aggregate amounts included in the determination of profit that resulted from transactions with each class of other related parties:

	Consolidated		Parent entity	
	2009 \$	2008 \$	2009 \$	2008 \$
Interest income	3,102,815	–	3,102,815	–
Interest expense	75,071,908	61,892,681	52,746,504	46,308,332
<b>Aggregate amounts brought to account in relation to other transactions with each class of other related parties:</b>				
Interest bearing loans advanced to trusts within DXS	1,121,465,506	702,893,000	1,144,697,125	661,977,000
Interest bearing loans advanced from trusts within DXS	930,257,931	962,495,000	930,737,281	760,452,000

## RREEF

On 21 February 2008, DXO purchased the remaining 50% interest in DXH from FAP. RREEF (a subsidiary of Deutsche Bank and fund manager of DEXUS Industrial Properties, Inc.) ceased to be a related party on this date. As a result amounts shown in the current period are nil and amounts shown in the prior period reflect transactions from 1 July 2007 to 20 February 2008.

	Consolidated		Parent entity	
	2009 \$	2008 \$	2009 \$	2008 \$
Investment management fee	–	1,425,990	–	–
Acquisition fee	–	1,412,823	–	–
Property management fees	–	24,961	–	–

No Directors held an interest in the Trust as at 30 June 2009 or at the date of this report.

### Other key management personnel

In addition to the Directors listed above the following persons were deemed by the Board Nomination and Remuneration Committee to be key management personnel during all or part of the financial year and up to the date of this report:

Name	Position	Qualification date of other key management personnel during the 12 months ended 30 June 2009
Victor P Hoog Antink	Chief Executive Officer	
Tanya L Cox	Chief Operating Officer	
Patricia A Daniels	Head of Human Resources	
John C Easy	General Counsel	
Jane Lloyd	Head of Retail	Qualified 14 July 2008
Louise J Martin	Head of Office	
Craig D Mitchell	Chief Financial Officer	
Paul G Say	Head of Corporate Development	
Mark F Turner	Head of Funds Management	
Andrew P Whiteside	Head of Industrial	

Remuneration received by key management personnel of the Trust is a cost of DXH and not the Trust. DXH does not recover any proportion of their remuneration from the Trust.

No key management personnel or their related parties held an interest in the Trust for the years ended 30 June 2008 and 30 June 2009 or at the date of this report.

There were no loans or other transactions with key management personnel or their related parties during the years ended 30 June 2008 and 30 June 2009 or at the date of this report.

# DEXUS INDUSTRIAL TRUST NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2009

CONTINUED

## Remuneration Report

### 1. Introduction

This Remuneration Report has been prepared in accordance with *AASB 124 Related Party Disclosures* and section 300A of the *Corporations Act 2001* for the year ended 30 June 2009. The information provided in this Report has been audited in accordance with the provisions of section 308 (3C) of the *Corporations Act*.

#### Key management personnel

In this report, Key Management Personnel ("KMP") are those people having the authority and responsibility for planning, directing and controlling the activities of DEXUS either directly or indirectly. They comprise Non-Executive Directors, the CEO and other members of the Executive Committee. Within this report the term "Executive" encompasses the CEO and other members of the Executive Committee.

KMP (including the five highest paid Executives) of DEXUS for the year ended 30 June 2009 are set out below:

Name	Title	Date of qualification as a KMP
<b>Non-Executive Directors</b>		
Christopher T Beare	Non-Executive Chair	Appointed 4 August 2004
Elizabeth A Alexander AM	Non-Executive Director	Appointed 1 January 2005
Barry R Brownjohn	Non-Executive Director	Appointed 1 January 2005
John C Conde AO	Non-Executive Director	Appointed 29 April 2009
Stewart F Ewen OAM	Non-Executive Director	Appointed 4 August 2004
Charles B Leitner III <sup>1</sup>	Non-Executive Director	Resigned 29 April 2009
Brian E Scullin	Non-Executive Director	Appointed 1 January 2005
Peter B St George	Non-Executive Director	Appointed 29 April 2009

<sup>1</sup> Mr Leitner was appointed on 10 March 2005. Simultaneous with Mr Leitner's resignation, Mr Fay resigned as Mr Leitner's alternate.

Name	Title	Date of qualification as a KMP
<b>Executives</b>		
Victor P Hoog Antink	Chief Executive Officer	Appointed 1 October 2004
Tanya L Cox	Chief Operating Officer	Appointed 1 October 2004
Patricia A Daniels	Head of Human Resources	Appointed 14 January 2008
John C Easy	General Counsel	Appointed 1 October 2004
Jane Lloyd	Head of Retail	Appointed 14 July 2008
Louise J Martin	Head of Office	Appointed 27 March 2008
Craig D Mitchell	Chief Financial Officer	Appointed 17 September 2007
Paul G Say	Head of Corporate Development	Appointed 19 March 2007
Mark F Turner	Head of Funds Management	Appointed 1 October 2004
Andrew P Whiteside	Head of Industrial	Appointed 28 April 2008

### 2. Board oversight of remuneration

The Board Nomination and Remuneration Committee ("Committee") oversees the remuneration of Directors and Executives. The Committee is responsible for reviewing, and recommending to the Board, Executive remuneration policies and structures.

The Committee assesses the appropriateness of the structure and quantum of Director and Executive remuneration on an annual basis by reference to relevant regulatory and market conditions, and engages external consultants as required to provide independent advice.

The role and membership of the Committee is set out in the Corporate Governance Statement, which may be found at [www.dexus.com/Corporate-Governance](http://www.dexus.com/Corporate-Governance)

During the reporting period Nomination and Remuneration Committee members were Messrs Beare (Chair), Ewen, Scullin and Conde (commencing 1 May 2009). Further to his appointment to the Board in April 2009 the Board resolved that Mr Conde be appointed Chair of the Nomination and Remuneration Committee effective 31 August 2009.

### 3. Non-Executive Directors' remuneration framework

The objectives of the Non-Executive Directors' remuneration framework are to ensure Non-Executive Directors' fees reflect the responsibilities of Non-Executive Directors and are market competitive. Non-Executive Directors' fees are reviewed annually.

Non-Executive Directors, other than the Chair, receive a base fee plus additional fees for membership of Board Committees. The table below outlines the fee structure for the reporting period.

<b>Committee</b>	<b>Chair \$</b>	<b>Member \$</b>
Non-Executive Director	300,000	130,000
Board Audit and Risk	30,000	15,000
Board Finance	30,000	15,000
Board Compliance	15,000	7,500
Board Nomination and Remuneration	–	7,500

Mr Leitner was an employee of RREEF America Inc., a Deutsche Bank group company, during the year ended 30 June 2009, and was not paid fees or any other remuneration by DEXUS. Mr Fay, the Alternate Director to Mr Leitner, received a consulting fee equivalent to the base fee earned by Non-Executive Directors.

During the year the Board considered the establishment of a Committee to oversee property acquisitions, disposals and developments. However, whilst the Board concluded that a formal Committee was not appropriate, it determined that Mr Ewen be paid a fixed fee of \$30,000 per annum for assuming additional responsibilities involved in attending meetings and reviewing property investment proposals on its behalf.

Recognising the greater responsibility and time commitment required, the Chair receives a higher fee than other Non-Executive Directors, which is benchmarked to the market median of comparably sized ASX listed entities. The Chair receives no Board Committee fees, nor is the Chair present during any discussion relating to the determination of the Chair's fees.

Non-Executive Directors are not eligible to receive performance based remuneration or accrue separate retirement benefits beyond statutory superannuation entitlements.

Fees paid to Non-Executive Directors are paid from a remuneration pool of \$1,750,000 per annum, which was approved by DEXUS security holders at its Annual General Meeting held in October 2008. Non-Executive Directors' fees were last adjusted in July 2007. Non-Executive Directors have received no increase in fees since that time. The next review of fees will be in respect of the year commencing 1 July 2010.

### 4. Approach to Executive remuneration

#### Philosophy underlying Executive remuneration

The Directors expect that superior execution and delivery of the DEXUS business model will create superior security holder value, through the delivery of consistent returns, generated with relatively moderate risk. The Directors consider that an appropriately skilled and qualified Executive team is essential to achieve this objective. DEXUS's approach to the structure and quantum of Executive remuneration is therefore designed to attract, motivate and retain such an Executive team.

In setting the remuneration structure, the Directors are conscious that the business of DEXUS involves longer term property investments and customer relationships. In addition, property market returns have tended to be cyclical, particularly when coupled with financial structures that act to enhance returns.

Taking these considerations into account, the Executive remuneration structure and quantum is based on the following criteria:

- (a) market competitiveness and reasonableness;
- (b) alignment of Executive performance payments with achievement of the Group's objectives within its risk framework, and reinforcement of DEXUS's values-based culture; and
- (c) an appropriate target mix of remuneration, including performance payments linked to security holder returns over the longer term, and the avoidance of incentives that encourage short-term decision taking.

DEXUS's Executive remuneration structure may be summarised as follows:

- fixed remuneration, targeted at the median of fixed remuneration of entities in the comparison group, with reference to each Executive's skills and depth of experience;
- total remuneration, targeted at the market median, and awarded on a variable scale for each Executive which could result in a total remuneration range from lower quartile to upper quartile, reflecting differing levels of experience, role structure and individual contribution; and
- a single pool of funds available to meet performance payments, which is divided between short-term and long-term elements.

**DEXUS INDUSTRIAL TRUST**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2009**

CONTINUED

**Remuneration Report (continued)**

**4. Approach to Executive remuneration (continued)**

**Philosophy underlying Executive remuneration (continued)**

*(a) Market competitiveness and reasonableness*

DEXUS has determined a comparison group, for remuneration benchmarking purposes, from:

1. constituents of the S&P/ASX 100 index;
2. constituents of the listed Australian Real Estate Investment Trust ("A-REIT") sector; and
3. other property industry entities.

As noted above, a single pool of funds is made available to meet all performance payments. The pool of funds available is sufficient to ensure that DEXUS can achieve its total remuneration positioning target, relative to the market. The Board exercises its discretion to vary the size of the available pool by reference to such factors as:

- three year absolute total security holder return;
- management costs and revenue of DEXUS Holdings; and
- performance against budgeted earnings per security and distribution per security, recognising capital adjustments.

*(b) Alignment of Executive performance payments with achievement of the Group's objectives*

The key performance measures that determine performance payments are typically a combination of financial and non-financial objectives which reflect each Executive's role, responsibility, accountability and delivery.

These objectives can include:

- financial performance objectives
  - earnings per security
  - distributions per security (in line with its Distribution Policy)
  - third party funds performance
  - total security holder return, relative to peers
- property performance objectives
  - operating earnings
  - percentage of vacant space per property
  - expenses against budget
- non-financial performance objectives
  - tenant satisfaction
  - employee engagement
  - executive succession and talent management
  - delivery of strategic projects to meet time and budget requirements
- behaviour that reinforces DEXUS's cultural values

These objectives have been selected as the Directors consider them to be the key drivers to achieve superior security holder returns over time.

The Committee reviews and approves CEO and other Executive key performance indicators (KPIs) against Group objectives at the start of each financial year and reviews achievement against KPIs at the end of each year.

*(c) Target mix of remuneration*

The target remuneration mix for Executives, expressed as a percentage of total remuneration, is provided in the table below.

Remuneration component	2009			2008		
	CEO	CFO	Other Executives	CEO	Property Executives	Other Executives
Total fixed	35%	40%	50%	40%	45%	50%
Short-Term Performance Payment (STPP)	30%	30%	25%	30%	30%	25%
Long-Term Performance Payment (LTPP)	35%	30%	25%	30%	25%	25%

The Directors consider that allocating performance payments evenly between immediate short-term payments and deferred long-term payments is appropriate for Executives other than the CEO, whose performance payment is weighted to the longer term to provide relatively greater alignment with long-term returns to security holders.

#### Executive remuneration structure

The table below outlines the structure of DEXUS's Executive remuneration.

Component	Remuneration framework
<b>Total Fixed Remuneration (TFR)</b>	
Salary	<ul style="list-style-type: none"> <li>■ consists of cash salary and salary sacrificed fringe benefits, such as motor vehicles.</li> <li>■ reviewed annually by the Board. Draws on relevant external and internal comparative remuneration information and advice on market practice as required.</li> </ul>
Superannuation	<ul style="list-style-type: none"> <li>■ prescribed and salary sacrifice superannuation contributions, including insurance premiums (if required).</li> </ul>
<b>Performance payments – STPP &amp; LTPP</b>	
	<ul style="list-style-type: none"> <li>■ the aim of performance payments is to link the achievement of the Group's objectives with the remuneration received by the Executives responsible for meeting those objectives.</li> <li>■ the objectives consist of financial and non-financial measures of performance at the Group, business unit and individual level.</li> <li>■ the objectives represent the key drivers for the success of the business and for delivering long-term value to security holders.</li> <li>■ performance payments made to each Executive depend on the extent to which specific KPIs, set at the beginning of the financial year, are met. Payments are only made for performance at or above required performance levels.</li> <li>■ performance payments are delivered in cash. The ratio of STPP to LTPP is set out in the target remuneration mix table above.</li> <li>■ delivery of LTPP is deferred for three years, as described below.</li> </ul>

#### Performance payments

Annual performance payments have two elements, being immediate short-term and deferred long-term cash payments. As noted above, an award of a performance payment is dependent on the extent of achievement of objectives reflected in specific KPIs.

Should an Executive be awarded a performance payment, the payment is split between STPP and LTPP using the ratio set out in the target remuneration mix table above.

#### Short-Term Performance Payment (STPP)

The STPP is delivered in cash in September each year, following the end of the financial year.

#### Long-Term Performance Payment (LTPP)

The LTPP is delivered in cash in accordance with the vesting schedule as set out in the Long-Term Incentive Plan rules.

The actual cash payment is based upon the subsequent three year returns of a combination of the returns received by DEXUS security holders and the returns received by its unlisted funds and mandates. Returns exceeding the benchmark are recognised by a greater long-term performance payment.

## Remuneration Report (continued)

### 4. Approach to Executive remuneration (continued)

#### Long-Term Performance Payment (LTPP) (continued)

The Long-Term Incentive Plan operates as follows:

- following allocation into the plan, payments are subject to a three year vesting period from allocation date;
- the LTPP allocation value is notionally invested during the vesting period in DEXUS securities (50% of LTPP value) and its unlisted funds and mandates (50% of LTPP value);
- during the vesting period, LTPP allocation values fluctuate in line with changes in the "Composite Total Return" (simulating the notional investment exposure), comprising 50% of the total return of DEXUS securities and 50% of the combined asset weighted total return of its unlisted funds and mandates; and
- at the conclusion of the three year vesting period, if the Composite Total Return meets or exceeds 100% of the Composite Performance Benchmark, the Board may approve the application of a performance factor to the final LTPP allocation value:
  - the "Composite Performance Benchmark" is 50% of the S&P/ASX 200 Property Accumulation Index and 50% of the Mercer Unlisted Property Fund Index over the three year vesting period;
  - for performance up to 100% of the Composite Performance Benchmark, executives receive an LTPP allocation reflecting the Composite Total Return of the preceding three year vesting period; and
  - for performance between 100% and 130% of the Composite Performance Benchmark a performance factor may be applied, ranging from 1.1 to a maximum of 1.5 times.

Provisions regarding the vesting of LTPP in the event of termination of service agreements are outlined in section 7 below.

#### Equity options scheme

DEXUS does not operate an equity option scheme as part of its Executive remuneration structure. The Committee has considered the introduction of such a scheme, but has determined that it would not be, at the present time, an appropriate component of the remuneration structure in light of DEXUS's business model.

#### Equity and loan schemes

DEXUS does not operate a security participation plan or a loan plan for Executives or Directors.

The long-term element of DEXUS's performance payment is designed to simulate an equity plan, but does not provide Executives with direct equity exposure.

#### Hedging policy

DEXUS does not permit Executives to hedge their LTPP allocation during the vesting period.

### 5. Executive remuneration arrangements for the year ended 30 June 2009

This section outlines how the remuneration approach described above has been implemented in the 2008/09 financial year.

#### Changes made during the year ended 30 June 2009

##### Remuneration structure

As part of the Committee's annual review of the Executive remuneration structure, a number of changes were made during the year ended 30 June 2009. These included:

- (a) evaluation and revision of the target remuneration mix for Executives;
- (b) allocation of performance payments between STPP and LTPP in accordance with the target remuneration mix;
- (c) increased focus on the review of appropriate and challenging KPIs for CEO and other Executives by the Committee; and
- (d) additional entities incorporated in the comparison group used to benchmark Executive remuneration.

##### Long-Term Incentive Plan review

The DEXUS Long-Term Incentive Plan was reviewed, incorporating advice from external consultants. The Committee confirmed key objectives to:

- achieve alignment with the long-term interest of security holders;
- ensure Executives are exposed to equity;
- assist in creating a competitive total remuneration package that encourages the attraction and retention of executives;
- have performance criteria consistent with DEXUS's long-term focus;
- be simple and transparent;
- be flexible and long-term in nature;
- be valued and understood by Executives; and
- be cognisant of contemporary market practice.

The Committee reaffirmed that the design of the plan, including that LTPP allocations are notionally invested in both DEXUS securities and the securities of its unlisted funds, was consistent with the DEXUS business model and long-term strategy, although a number of operational enhancements were implemented as follows:

- eligibility restricted to Executives and senior management team;
- accelerated vesting on termination was discontinued; and
- automatic application of the performance multiplier was removed.

##### Termination provisions

During the year the Committee also reviewed Executive termination arrangements. The Group's previous practice provided for uncapped termination benefits for Executives, related to years of service. The Board has now approved amended arrangements for Executives. These termination arrangements are outlined in section 7.

The Committee anticipates that potential regulatory changes, including the recommendations of the Productivity Commission's review of executive remuneration, could necessitate further changes in the coming year.

### Total fixed remuneration

Executives are given the opportunity to receive their TFR as cash, superannuation or salary sacrificed fringe benefits, such as motor vehicles.

There are no guaranteed TFR increases in Executives' contracts of employment. In the 2010 financial year, there will be no TFR increases for Executives.

### Performance payments

As outlined under the Executive remuneration structure above, STPP and LTPP allocations are drawn from a single performance pool, with the size of the pool determined according to reasonableness and market competitiveness.

All Executive performance payments were dependent on the achievement of performance against agreed objectives, including performance of their business unit and the overall performance of DEXUS. The Board exercised its discretion regarding the final determination of performance payments and, reflecting DEXUS's performance in 2008/09, performance payments to Executives were scaled down.

As outlined above, a portion of the performance payment for each Executive is delivered as a cash-based payment in September 2009, for performance to 30 June 2009. The remaining portion of the performance payment is allocated to the Long-Term Incentive Plan, to be delivered as a cash-based payment in September 2012, for performance to 30 June 2009.

## 6. Group performance and the link to remuneration

### Total return analysis

The table below sets out the DEXUS total security holder return since inception, relative to the S&P/ASX 200 Property Accumulation Index. It also sets out DEXUS's Composite Total Return since inception, relative to the Composite Performance Benchmark. The DEXUS Composite Total Return is 50% of the total return of DEXUS securities, plus 50% of the combined asset weighted total return of its unlisted funds and mandates and the Composite Performance Benchmark is 50% of the S&P/ASX 200 Property Accumulation Index and 50% of Mercers' Unlisted Property Fund Index.

	1 year (% per annum)	2 years (% per annum)	3 years (% per annum)	Since 1 October 2004 <sup>1</sup> (% per annum)
<b>Period to 30 June 2009</b>				
DEXUS Property Group	-37.3%	-31.1%	-12.1%	-2.5%
S&P/ASX 200 Property Accumulation Index	-42.3%	-39.4%	-22.7%	-10.3%
DEXUS Composite Total Return	-24.2%	-16.1%	-4.0%	3.4%
Composite Performance Benchmark	-27.3%	-19.6%	-8.2%	0.3%

<sup>1</sup> DEXUS's inception date is 1 October 2004.

During the year DEXUS did not buy back or cancel any of its securities.

### Total return of DEXUS securities

The graph below illustrates DEXUS's total security holder return relative to the S&P/ASX 200 Property Accumulation Index.

6/10/2004 = 100

\* 6 October 2004 to 30 June 2009

## Remuneration Report (continued)

### 6. Group performance and the link to remuneration (continued)

#### Total return of DEXUS securities (continued)

DEXUS has outperformed the S&P/ASX 200 Property Accumulation Index in the most recent year and in each period since inception in October 2004. In addition, the DEXUS Composite Total Return has likewise outperformed the Composite Performance Benchmark in the most recent year and in each period since inception in October 2004.

While the Directors recognise that improvement is always possible, they consider that DEXUS's business model, which aims to deliver consistent returns with relatively moderate risk, has been central to DEXUS's relative out-performance, and that the approach to Executive remuneration, with a focus on consistent out-performance of objectives, is aligned with and supports the superior execution of the DEXUS business model.

### 7. Service agreements

The employment arrangements for the CEO and other Executives are set out below.

#### CEO – Victor P Hoog Antink

The current employment contract commenced on 1 October 2004. The principal terms of the employment contract are as follows:

- the CEO is employed under a rolling contract.
- the CEO receives fixed remuneration of \$1,300,000 per annum.
- the CEO may resign from his position and thus terminate this contract by giving six months written notice. On resignation any unvested LTPP will be forfeited subject to the discretion of the Board.
- the Group may terminate the CEO's employment agreement by providing six months written notice or payment in lieu of the notice period (based on the fixed component of CEO's remuneration). Additionally, the Group may provide a performance payment for the period of the last review date (being 1 July) until the last day of the notice period.
- in the event that the Group initiates termination for reasons outside the control of the CEO, a severance payment equal to 100% of fixed remuneration is payable.
- on termination by the Group, any LTPP awards will vest in accordance with the vesting schedule of the Long-Term Incentive Plan, subject to the discretion of the Board.
- the Group may terminate the contract of the CEO at any time without notice if serious misconduct has occurred. In the event of termination for cause the CEO is only entitled to that portion of remuneration that is fixed, and only up to the date of termination. On termination for cause any unvested LTPP awards will immediately be forfeited.

#### Executives (other than the CEO)

The principal terms of Executive employment contracts are as follows:

- all Executives have rolling contracts.
- the Group may terminate an Executive's employment agreement by providing three months written notice or providing payment in lieu of the notice period (based on the fixed component of the Executive's remuneration). In the event that the Group initiates the termination for reasons outside the control of the Executive, a severance payment equal to a maximum of 75% of fixed remuneration will be made.
- on termination by the Group, any LTPP awards will vest in accordance with the vesting schedule of the Long-Term Incentive Plan, subject to the discretion of the Board.
- the Group may terminate the contract at any time without notice if serious misconduct has occurred. Where termination for cause occurs the Executive is only entitled to that portion of remuneration that is fixed, and only up to the date of termination. On termination for cause any unvested LTPP awards will immediately be forfeited.

## 8. Remuneration of key management personnel

Details of the structure and quantum of each component of remuneration for DEXUS Executives for the years ended 30 June 2008 and 30 June 2009 are set out in the following table. This table includes details of the five highest paid Directors or Executives.

Name	Short-term employee benefits			Post employment benefits	Other long-term benefits		Total	
	Cash salary and fees	Short-term performance payments	Other short-term benefits	Pension and super benefits	Long-term performance payment allocations <sup>6</sup>	Movement in prior year long-term performance payment allocation values <sup>7</sup>	Other long-term benefits	
	\$	\$	\$	\$	\$	\$	\$

1 Elizabeth A Alexander ceased to be a member of the Board Compliance Committee and a member of the Board Finance Committee on 30 April 2009.

2 Barry R Brownjohn ceased to be the chair of the Board Finance Committee on 30 April 2009 and became chair of the Board Compliance Committee on 1 May 2009.

3 John C Conde became a Non-Executive Director on 29 April 2009. He was appointed to the Board Compliance Committee and the Board Nomination and Remuneration Committee on 1 May 2009.

4 As an employee of the Deutsche Bank group, Mr Leitner waived his right to receive Director's fees. Accordingly, Mr Leitner's Alternate Director, Mr Fay did not receive Director's fees when acting as his alternate. Mr Leitner ceased to be a Non-Executive Director on 29 April 2009. Accordingly, Mr Fay ceased to be Mr Leitner's Alternate Director on 29 April 2009.

5 Peter B St George became a Non-Executive Director on 29 April 2009. He was appointed to the Board Audit and Risk Committee and the Board Finance Committee on 1 May 2009.

All Non-Executive and Alternate Directors also receive reimbursement for reasonable travel, accommodation and other expenses incurred whilst undertaking DEXUS business.

During the year ended 30 June 2009, Charles B Leitner, Non-Executive Director, was an employee of RREEF America Inc., a Deutsche Bank group company, and was not paid fees or any other remuneration by DEXUS or any of its subsidiaries.

The Chief Executive Officer, Victor P Hoog Antink, does not receive fees in respect of his role as a Director, but does receive remuneration as a Senior Executive of DXFM.

Commencing 1 April 2009 Mr Ewen earned a fee equivalent to a Committee Chair fee, in addition to his Director's fee, as compensation for the added responsibilities assumed in attending meetings and reviewing property investment proposals on behalf of the Board.

During the year, Mr Fay received a consulting fee of \$108,300 from 1 July 2008 to 29 April 2009.

#### Non-Executive Director Remuneration

Details of the structure and quantum of each component of remuneration for each Non-Executive Director for the years ended 30 June 2008 and 30 June 2009 are set out in the following table.

Name	Short-term employee benefits \$	Post employment benefits <sup>1</sup> \$	Other long-term benefits \$	Total \$

The Directors of DEXUS Funds Management Limited as Responsible Entity DEXUS Industrial Trust (the Trust) declare that the Financial Statements and notes set out on pages 7 to 56:

- (i) comply with applicable Australian Equivalents to International Financial Reporting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
- (ii) give a true and fair view of the consolidated entity's financial position as at 30 June 2009 and of their performance, as represented by the results of their operations and their cash flows, for the year ended on that date.

In the Directors' opinion:

- (a) the Financial Statements and notes are in accordance with the *Corporations Act 2001*;
- (b) there are reasonable grounds to believe that the Trust and its consolidated entities will be able to pay their debts as and when they become due and payable; and
- (c) the Trust has operated in accordance with the provisions of the Constitution dated 1 August 1997 (as amended) during the year ended 30 June 2009.

The Directors have been given the declarations by the Chief Executive Officer and Chief Financial Officer required by section 295A of the *Corporations Act 2001*.

This declaration is made in accordance with a resolution of the Directors.

**Independent auditor's report to the equity holders of  
DEXUS Industrial Trust**

**Report on the financial report**

We have audited the accompanying financial report of DEXUS Industrial Trust (the Trust), which comprises the balance sheet as at 30 June 2009, and the income statement, statement of changes in equity and cash flow statement for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the directors' declaration for both DEXUS Industrial Trust and the DEXUS Industrial Trust Group (the consolidated entity). The consolidated entity comprises the Trust and the entities it controlled at the year's end or from time to time during the financial year.

*Directors' responsibility for the financial report*

The directors of DEXUS Funds Management Limited, as responsible entity of the Trust, are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that compliance with the Australian equivalents to International Financial Reporting Standards ensures that the financial report, comprising the financial statements and notes, complies with International Financial Reporting Standards.

*Auditor's responsibility*

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

Our procedures include reading the other information in the Annual Report to determine whether it contains any material inconsistencies with the financial report.

Our audit did not involve an analysis of the prudence of business decisions made by directors or management.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Liability limited by a scheme approved under Professional Standards Legislation
